EDUCATION	The Chinese University of Hong Kong, Shenzhen (CUHK-Shenzhen) Ph.D. in Computer and Information Engineering	August 2023 - Present
	• Supervisor: Prof. Feng Yin, Prof. Tsung-Hui Chang (IEEE Fellow)	
	The Chinese University of Hong Kong, Shenzhen (CUHK-Shenzhen) B.Sc. in Statistics (First-class honours)	May 2020
HONORS AND AWARDS	School of Science and Engineering Postgraduate Studentship, CUHK-Sh	nenzhen 2023
	Undergraduate Research Award, CUHK-Shenzhen	2022, 2023
	School of Data Science Dean's List Award, CUHK-Shenzhen	2020, 2021, 2022, 2023
	Guangdong Government Outstanding International Student Scholarshi	p 2020, 2021
	Full Tuition and Accommodation Scholarship, CUHK-Shenzhen	2019
RESEARCH EXPERIENCE	Bayesian Learning for Signal Processing (BLSP) Group, CUHK-Shenzhen	
	Undergraduate research assistant Assisted Prof. Feng Yin with Gaussian process for time series analysis project: June 2021 - May 2	
	 Developed two distributed learning algorithms for Gaussian process regression based on the successive convex approximation (SCA) and alternating direction method of multipliers (ADMI algorithm Presented a paper that was accepted to the 25th International Conference on Information Fusion (FUSION) 2022 	
	Shenzhen Research Institute of Big Data (SRIBD), Shenzhen	
	Undergraduate research assistant Assisted Prof. Tsung-Hui Chang with federated unsupervised learning	June 2020 - May 2021 project:
	 Investigated the federated matrix factorization (MF) problem for data clustering and recommender systems Combined the alternating minimization and model averaging (MA) technique to solve the federated MF problem 	
	 Co-authored a paper that was accepted to the 46th IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP) 2021 	
PUBLICATIONS	R. C. Suwandi, Z. Lin, Y. Sun, Z. Wang, L. Cheng and F. Yin, "Gaussian Process Regression with Grid Spectral Mixture Kernel: Distributed Learning for Multidimensional Data," 25th International Conference on Information Fusion (FUSION), 2022, pp. 1-8. [Paper], [Code]	
	S. Wang, R. C. Suwandi and TH. Chang, "Demystifying Model Averaging for Communication- Efficient Federated Matrix Factorization," 2021 IEEE International Conference on Acoustics, Speech	

and Signal Processing (ICASSP), 2021, pp. 3680-3684.
